83-14-879-EM

TARGET AUDIENCE

This activity has been designed to meet the educational needs of psychiatrists, registered nurses, nurse practitioners, physician assistants, psychologists, social workers, and case managers.

EDUCATIONAL OBJECTIVES

After completing this activity, the participant should be better able to:

- Utilize comprehensive history-taking and assessment tools to monitor for, and identify, inadequate treatment response and residual symptoms in major depressive disorder (MDD)
- Implement appropriate treatments for MDD that address all symptoms of the disorder, including new and emerging antidepressants
- Integrate into practice strategies for managing patients with partial response or non-response in MDD
